

BROADCASTVISION (BVE) SYSTEM - INSTALLATION INSTRUCTIONS

INTRODUCTION:

3/2016

Instructions for installing a Broadcastvision Entertainment (BVE) system on a Landice products

TOOLS REQUIRED: 1/2" socket and Phillips head screwdriver

1. Locate the hardware attached to the bracket and use a 1/2" socket to secure the bracket to the underside of the pod.

2. Mount the TV to the bracket using the 4 screws attached to the television.

3. Complete connections at the top of the TV: Power, RJ45 Remote, Cable Line and *iPod Cable.

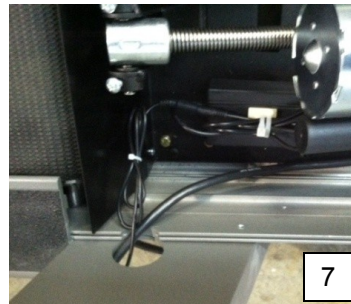

4. Attach the remote to the crossbar with ties provided.

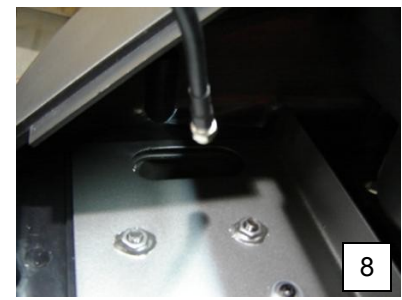

5. Feed the BVE power cord from the base of the bracket through the pod access hole.

6. Run the power wires down the upright leg into the motor pan using the extra "J" clips to secure.

7. Run the power wires into motor pan and connect to transformer. Transformer is connected to control board.

8. Feed cable line through TV mount into the pod, through the 1.25" access hole and down left side upright.

9. Connect cable line to the available coaxial plug in the inside of the upright.

10. Turn the unit on and verify that the BVE system is working before snapping the upright covers back on.
